

The Nobac 500 sleeve has been specifically developed for today's retailers and packers. It's unique, linerless, adhesive backed labels eliminate the need for wasteful, non-recyclable backing papers. The sleeve is an inline machine, designed for maximum flexibility and eliminates the need to turn the packs. It is capable of applying sleeves in five formats, top, top & side, top & two sides, C-wrap, and full wrap.

In addition to sleeving fixed weight product there is the option of linking the Nobac 500 to weigh scales from a range of manufacturers for variable weight product as well as check weighing.

Production speeds have not been compromised, in fixed weight mode 120ppm is possible and by linking to the latest weigh scales over 100ppm is possible in variable weight systems.

**Main features**

- Quick changeover between wrap formats.
- No backing paper.
- Fixed weight and variable weight options.
- Thin board sleeve with adhesive optimized for specific products.

**Standard specification:**

- (subject to specific application)-
- Electrical Supply; 110v 60hz single phase
- Air Supply; 5.5 bar 80psi 4cfm
- Max pack height; 120mm
- Max sleeve length; 500mm
- Max sleeve width; 130mm
- Coder (optional); Markem Smart Date
- Construction: stainless steel and anodized aluminum
